

# floorJIVERS electric Lounge

## Press Release Bernd Delbrügge & floorJIVERS

"In supremely laid back and virtuoso style, Cologne/Germany based saxophonist Bernd Delbrügge & his band floorJIVERS unravel a carpet of sound on which you can fly quite same way through space and time. They take liberties to what they want: the freedom of Jazz, the impertinence of Funk, Soul and House and also the time for minimalistic Trance repetitions" - was one journalist's assesment of the floorJIVERS' music.

Their debut-Cd 'e-STYLEZ' became Cd of the week at WDR (Germany's biggest TV- and radio station). Some tracks of this album meanwhile you can find on lots of compilations; 'blue-TRAXS' is their 2nd album, 'songbook' the 3rd one.

The floorJIVERS develop their live performances like a movie sound track, taking the listener on a journey through different landscapes of sound. With their unique electric-lounge-groove the four artists of improvisation rocked the house at BREAD & BUTTER Party during the International Fashion Show Berlin as well as clubs like the FUNKY CHICKEN CLUB in Cologne. They performed at the KOOKAI FASHION HOUSEPARTY, the international WORLD GAS & OIL CONFERENCE in DUBAI, they gave a guest performance in the antique backgrounds of PETRA/ Jordan as well as at the OPERA GARNIER in Paris.
